Parking lot USB exercise

Contents	Write **2-3 sentences** about the types of information found on this device. ● *There is PII from both Jorge in the USB drive.* ● *There are also work files which include the PII of other people and the hospital's operations.* ● *It is unsafe to keep PII with work files since a single leak can compromise both Jorge and his company.*
Attacker mindset	Write **2-3 sentences** about how this information could be used against Jorge or the hospital. ● *There are timesheets which can provide an attacker information about Jorge's workmates.* ● *Jorge's relatives could be in danger if an attacker impersonates him.*
Risk analysis	Write **3 or 4 sentences** describing technical, operational, or managerial controls that could mitigate these types of attacks: ● *If the drive was infected, a malware could be installed from it whenever the person who found it connects it to his computer.* ● *To protect from this, it would be a good idea to install a software to protect the host machine before trying to analyze the contents of the USB.* ● *Performing regular antivirus analysis, and apply updates and patches to the OS are also good practices to minimize risks.*
